

BOOK REVIEWS

From Jean M: I read this book to my granddaughter on Sunday, April 7th. It was not read before, as it seemed too old for her. I was very wrong.

I took the book out of the bag and she saw the little dog with drips of water. She was absolutely delighted and laughed out loud. As I read to her, the first few pages amused her so much she continued to laugh out loud. She was totally interested in the entire book. When I finished, I asked if she liked it. She nodded her head and said, "Yeah." She then took the book, opened it, and began to read the entire book to me. The words were her own language, but a word now and then was understandable. It was a totally delightful experience for both her and me.

She is now 2½ and loves books, but it was really a pleasure to watch her get so much out of a book. She has a lot of favorites, but this will be one that is read over and over. I think your book must be a huge success.

From D. L. Tran: "I received the book. My son loved it. He read it right away. Thank you."

From Ruby D: The story is precious and the illustrations are charming. I love the dedication to your mom, and also the pop quiz at the end. My boys and the kids at the Mothers' Group will enjoy Sprinkler Dog's adventure and mystery solving skills for years to come!

From Tamara: Chris, your book is adorable! I love the little dog. The illustrations are amazing as well. Thanks for mailing it.
